

1/ ALONE SOMETIMES

Things are clear in my mind nothing better
Than being alone, alone sometimes
Things are clear in my mind nothing better
Than being alone, alone sometimes

Try to empty my head and let no doubts enter
To be in peace with myself, finally to have a break
Try to be free, in the grass, to take the time to lie down
Try to think about my secret dreams and wonder if they will be fulfilled

Things are clear in my mind nothing better
Than being alone, alone sometimes
Things are clear in my mind nothing better
Than being alone, alone sometimes

Try to forget all worries, break away from daily routine
Taste the charm of simplicity, introduce a little levity
Try to feel lightness in my mind, calm spirit, it will be mine
Try to take a step, back on my life, and retain only the best

Things are clear in my mind nothing better
Than being alone, alone sometimes
Things are clear in my mind nothing better
Than being alone, alone sometimes

We go round and round again in circles that's a fact
We get even more confused
We go round and round again in circles that's a fact
We must stop, think of what we do

We go round and round again in circles that's a fact
We get even more confused
We go round and round again in circles that's a fact
We must stop, think of what we do

2/ PERFECT GIRL

Oh oh oh, she's a perfect girl

Oh oh oh, she's a perfect girl

Her way to dress up, her make up incredible

When she wakes up, so perfect, impossible

When she walks in the city streets look like a fashion show every time

All eyes on her, all smiles for her, everybody wants to be by her side

When she seats in a little café she is served as a famous actress,

All jokes for her, the gallantry for her, I'm still waiting alone and hopeless

Come on I believe in me, it will be my turn one day I know

Someone will take care of me I guess it's just how it goes

Oh oh oh, she's a perfect girl

Oh oh oh, she's a perfect girl

Her way to dress up, her make up incredible

When she wakes up, so perfect, impossible

Who knows why her and not me everything seems so easy for her

The morning run, the afternoon have fun, all the evening to be the queen

Who doesn't know exactly what kind of girl I am talking about ?

I suppose you know and if it weren't so, who do you think you are ?

Come on I believe in me, it will be my turn one day I know

Someone will take care of me I guess it's just how it goes

Oh oh oh

Oh oh oh

Oh oh oh

Oh oh oh

Come on I believe in me, it will be my turn one day I know

Someone will take care of me I guess it's just how it goes

3/ INSIDE MY OWN WORLD

Each time I try it is hard to find
A vision of light that could give me a smile
I need to know know know
Where we go go go

I am worried about, behavior sometimes
Superficial thinking, we cannot deny
I need to know know know
Where we go go go

Too many liars around me
Too many hearts feel empty
Don't know why true love means nothing
Don't know why the money is the king
Inside.....my own world
Inside.....my own world

The size of their cars seems more important than
The friends they have they don't worry about
I need to know know know
Where we go go go

Egoism looks very trendy, judging the lowest
To stay forever the first
I need to know know know
Where we go go go

Too many liars around me
Too many hearts feel empty
People want to be very famous
People feel alone more than ever
Inside.....my own world
Inside.....my own world

What do you think about that ?
Don't you think I say the truth
Something bad will happen now

Don't you know what we should do

Today

Today

Today

Today

4/ MY GREATEST MELODY

I wonder what kind of hopes and dreams
my children have
What they will become once grown, what they have in their little heads

Sweet, funny and magic
That's their lives
Bubbling and fantastic
they are right
Sweet, funny and magic
That's their lives
Bubbling and fantastic

To run like the wind that's what they like
pretend to be asleep every night
to draw with lipstick all the time
climb on the bookshelves, it's so fun

Wonna know why I'm lucky ?
It's obvious
Wonna know why I'm happy ?
It is clear
When I come back home, I can hear children laughing
This is my greatest melody, my greatest melody

I wonder how those little arms can hug me
so hard
How they can give me so much love, by looking at me, deeply

Sweet, funny and magic
That's their lives
Bubbling and fantastic
they are right
Sweet, funny and magic
That's their lives
Bubbling and fantastic

You know what they really prefer
To throw hundreds of stones into the water
To eat candy before dinner
to paint on the walls and on their hair

Wonna know why I'm lucky ?

It's obvious

Wonna know why I'm happy ?

It is clear

When I come back home, I can hear children laughing

This is my greatest melody, my greatest melody

Sweet, funny and magic...mmh

Bubbling and fantastic.....mmh

Sweet, funny and magic...mmh

Bubbling and fantastic.....mmh

5/ WE WERE FINE

Feeling sad when I see this picture of us I
Feel sad when I think of memories together
We were fine
Together we were fine
In my mind, our games in the schoolyard and
In my mind, our tenders secrets together
We were fine
Together we were fine

Why.....time is gone
Why.....no one
No one can replace you
my dear friend
you're the best

Our holidays at the see sight with parents our
Birthdays the famous magic candles together
We were fine
Together we were fine
We used to sing and to laugh in the school bus we
Used to play with your prettiest doll together
We were fine
Together we were fine

Why.....time is gone
Why.....no one
No one can replace you
my dear friend
you're the best

Please.....come away
Please.....come away
Please.....come away
Please.....come away with me

Nothing to hide
And nothing to say
I'm just trying to be alone
Feeling the wonder
Feeling the freedom
This is really what I want

What's wrong what's wrong?
Don't think I made a mistake
What's wrong what's wrong?
Don't start to be unfair

To take the time just a quiet time
Please stop judging me
To go where I want to do what I want
Wherever my fancy takes me

What's wrong what's wrong?
My life could be so good
What's wrong what's wrong?
Why am I misunderstood?

I'm running away....I'm running away
That's the only way that I have found
I'm running away....I'm running away
To find true happiness and wisdom

No one, no one, can hold me back
No one, no one, can hold me back
I'll stand on, on my own

How many questions
How many lies
Please stop, asking me why
Let me be a dreamer
Let me be a lover
Getting lost along the sky

What's wrong what's wrong?

No tears and no regrets

What's wrong what's wrong?

I'm sorry but I can wait

I'm running away....I'm running away

That's the only way that I have found

I'm running away....I'm running away

To find true happiness and wisdom

No one, no one, can hold me back

No one, no one, can hold me back

I'll stand on, on my own

Am I wrong or right?

It doesn't matter

Am I wrong or right?

To start feeling better

I'm running away....I'm running away

That's the only way that I have found

I'm running away....I'm running away

To find true happiness and wisdom

No one, no one, can hold me back

No one, no one, can hold me back

I'll stand on, on my own

Hold me hold me, tight in your arms
Hold me hold me, I need you tonight

When, I lose my way I don't see sparks
When, times are long all my dreams are dark
Will you be there to heal my heart?
Will you be there to heal my sorrow, my sorrow?

Hold me hold me, tight in your arms
Hold me hold me, I need you tonight

When, life looks cruel, everything becomes gray
When, my soul cries there is nothing to say
Will you be there to heal my heart?
Will you be there to heal my sorrow, my sorrow?

Hold me hold me, tight in your arms
Hold me hold me, I need you tonight

When things go wrong and you feel hopeless
You'll seek someone to overcome your sadness
I'll be there to heal your heart
I'll be there to heal your sorrow, your sorrow

Always on my mind....all the time, I need you beside me
Always on my mind....all the time, I need you beside me
Always on my mind....all the time, I need you beside me
Always on my mind....all the time, I need you beside me

8/ HERE I AM STANDING

**Here I am standing another begins and I
I am still counting the days**

Early in the morning
Nobody around me and I
I am still counting the days
Spending everyday like that
Spending every day I am down
Nothing left to lose right now
Nothing left to lose I won't go
Tell me honestly in my memories was life this cruel before ?
Tell me finally please remind me what happiness was before ?

**Here I am standing another begins and I
I am still counting the days**

I have no choice no way
What darkness around me and what
What are those fears inside me
Hurting by this heavy sound
Hurting in my soul I am down
Leaving my dreams in my past
Leaving all my dreams and my hopes
Tell me honestly, what happened to me, a few hours before ?
Tell me finally, what my life will be, do I lose myself in this war ?

**Here I am standing
Here I am standing**

How could they be so hardless ?
How could they be so shameless ?
Even if I'm wrong I'll stay
Even if I'm wrong I'll stay

9/ THE SWEETNESS OF SUMMER

Children smiling
Grandma is sleeping
A slight perfume tonight
Parents together
They're watching other
High stars in the sky

Nothing better than breathing
In the taste of this evening

The sweetness of summer, is back
The sweetness of summer, is back
All we need is to spend time together
To enjoy, to take care of each other

Too long was the waiting
I'm feeling something
The warm breeze on my skin
Candles sparkling
Daddy waiting
To drink a good red wine

Nothing better than breathing
In the taste of this calm evening

The sweetness of summer, is back
The sweetness of summer, is back
All we need is to spend time together
To enjoy, to take care of each other

We can hear the sound of the waves
It still brings a smile to my face
A smile, full of light and heat
A smile, full of joy, full of life and heat.....

The sweetness of summer, is back
The sweetness of summer, is back

10/ WORDS

Words and I

I cried all the tears that I had
Those which always hurt me so bad.
and which make me happy sometimes

What was the first word that I said.
the first of my child was the best
they come and go, come and go, come and go
sometimes we forget them of course

They make me laugh and smile
give me the strength to move forward
erase suffering and sorrow in my soul, my soul

Words and I

I cried all the tears that I had
those I have not had time to say
those I did not dare say sometimes

The last words of ours elders
their advice to go further
they come and go, come and go, come and go
keep the best of them of course

Those words I wait so long, so hard for
Will I hear them one day I hope ?
Those which count for me deep in my soul, my soul
